

# Geomet Release – June 2004

Please complete the following form and fax it to (716) 297-9405

To obtain the GeoSecure code, please download the file CheckModuleTest.exe from the download page on the Geomet web site: [www.geomet-cmm-software.com](http://www.geomet-cmm-software.com). The 10-character code that gets reported is required for activating the new version Geomet.

GeoSecure Code:

Company Name:

Address:

City:

State:

Zip:

Telephone Number:

CMM Serial Number:

Geomet Level:

Current Geomet Version:

- NOTE: The CMM Serial Number is located on the rear of the CMM of a name plate and is formatted ##-##. This serial number is not required from non-Helmel CMMS
- Geomet Level: Junior, 101, 101 with GeoPlus or 301
- Geomet Version: Example 6.00.001.001 can be located in Help->About from the main menu.

Thank You,

## ***Helmel Engineering Products, Inc.***
